Ammonium Chloride
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations
Issue date: 07/24/2006 Revision date: 05/21/2020 Supersedes: 11/02/2016 Version: 2.2

SECTION 1: Identification

1.1. Identification
Product form : Substance
Substance name : Ammonium Chloride
CAS-No. : 12125-02-9
Product code : LC10972
Formula : NH4Cl
Synonyms : amchlor / amchloride / ammonii chloridum / ammonium muriate / muriate of ammonia / sal ammoniac / salmiac

1.2. Recommended use and restrictions on use
Use of the substance/mixture : Pharmaceutical product: component
Electrolyte
Fertilizer
Laboratory chemical
Chemical raw material
Explosive: additive
Food industry: additive
Veterinary medicine
Recommended use : Laboratory chemicals
Restrictions on use : Not for food, drug or household use

1.3. Supplier
LabChem, Inc.
1010 Jackson's Pointe Ct.
Zelienople, PA 16063 - USA
T 412-826-5230 - F 724-473-0647
info@labchem.com - www.labchem.com

1.4. Emergency telephone number
Emergency number : CHEMTREC: 1-800-424-9300 or +1-703-741-5970

SECTION 2: Hazard(s) identification

2.1. Classification of the substance or mixture
GHS US classification
Acute toxicity (oral) Category 4 H302 Harmful if swallowed
Full text of H statements : see section 16

2.2. GHS Label elements, including precautionary statements
GHS US labeling
Hazard pictograms (GHS US) :

Signal word (GHS US) : Warning
Hazard statements (GHS US) : H302 - Harmful if swallowed
Precautionary statements (GHS US) :
P264 - Wash exposed skin thoroughly after handling.
P270 - Do not eat, drink or smoke when using this product.
P301+P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P330 - IF swallowed, rinse mouth
P501 - Dispose of contents/container to comply with local, state and federal regulations.

2.3. Other hazards which do not result in classification
Other hazards not contributing to the classification : None.

2.4. Unknown acute toxicity (GHS US)
Not applicable
### SECTION 3: Composition/Information on ingredients

#### 3.1. Substances

**Substance type**: Mono-constituent

<table>
<thead>
<tr>
<th>Name</th>
<th>Product identifier</th>
<th>%</th>
<th>GHS US classification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ammonium Chloride (Main constituent)</td>
<td>(CAS-No.) 12125-02-9</td>
<td>100</td>
<td>Acute Tox. 4 (Oral), H302</td>
</tr>
</tbody>
</table>

Full text of hazard classes and H-statements: see section 16

#### 3.2. Mixtures

Not applicable

### SECTION 4: First-aid measures

#### 4.1. Description of first aid measures

**First-aid measures after inhalation**: Remove the victim into fresh air. Respiratory problems: consult a doctor/medical service.

**First-aid measures after skin contact**: Rinse with water. Soap may be used. Do not apply (chemical) neutralizing agents without medical advice. Take victim to a doctor if irritation persists.

**First-aid measures after eye contact**: Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Do not apply (chemical) neutralizing agents without medical advice. Take victim to an ophthalmologist if irritation persists.

**First-aid measures after ingestion**: Rinse mouth with water. Immediately after ingestion: give lots of water to drink. Do not induce vomiting. Do not apply (chemical) neutralizing agents without medical advice. Call Poison Information Centre (www.big.be/antigif.htm). Consult a doctor/medical service if you feel unwell. Ingestion of large quantities: immediately to hospital.

#### 4.2. Most important symptoms and effects (acute and delayed)

**Potential Adverse human health effects and symptoms**: Harmful if swallowed. Not irritant to skin. Practically non-toxic in contact with skin (LD50 skin > 2000 mg/kg). Causes serious eye irritation.

**Symptoms/effects after inhalation**: AFTER INHALATION OF DUST: Coughing. AFTER INHALATION OF FUME: Respiratory difficulties.

**Symptoms/effects after skin contact**: Red skin.

**Symptoms/effects after eye contact**: Redness of the eye tissue. Irritation of the eye tissue.

**Symptoms/effects upon intravenous administration**: No effects known.

**Chronic symptoms**: Skin rash/inflammation. Red skin. Dry skin. Itching. AFTER INHALATION OF FUME: Respiratory difficulties.

#### 4.3. Immediate medical attention and special treatment, if necessary

Obtain medical assistance. Treat symptomatically.

### SECTION 5: Fire-fighting measures

#### 5.1. Suitable (and unsuitable) extinguishing media

**Suitable extinguishing media**: Adapt extinguishing media to the environment for surrounding fires.

#### 5.2. Specific hazards arising from the chemical

**Fire hazard**: DIRECT FIRE HAZARD. Non combustible. INDIRECT FIRE HAZARD. Reactions involving a fire hazard: see "Reactivity Hazard".

**Explosion hazard**: INDIRECT EXPLOSION HAZARD. Reactions with explosion hazards: see "Reactivity Hazard".

#### 5.3. Special protective equipment and precautions for fire-fighters

**Precautionary measures fire**: Exposure to fire/heat: keep upwind. Exposure to fire/heat: consider evacuation. Exposure to fire/heat: have neighbourhood close doors and windows.

**Firefighting instructions**: Dilute toxic gases with water spray. Take account of toxic/corrosive precipitation water.

**Protection during firefighting**: Heat/fire exposure: compressed air apparatus (EN 136 + EN 137).
SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel
Protective equipment

Emergency procedures
Mark the danger area. Prevent dust cloud formation, e.g. by wetting. No naked flames. Wash contaminated clothes. In case of hazardous reactions: keep upwind. In case of reactivity hazard: consider evacuation.

Measures in case of dust release
In case of dust production: keep upwind. Dust production: have neighbourhood close doors and windows.

6.1.2. For emergency responders
Protective equipment
Equip cleanup crew with proper protection.

6.2. Environmental precautions
Prevent entry to sewers and public waters.

6.3. Methods and material for containment and cleaning up
For containment
Contain released substance, pump into suitable containers. Plug the leak, cut off the supply. Knock down/dilute dust cloud with water spray. If reacting: dilute toxic gas/vapour with water spray. Take account of toxic/corrosive precipitation water.

Methods for cleaning up
Stop dust cloud by humidifying. Scoop solid spill into closing containers. Clean contaminated surfaces with an excess of water. Wash clothing and equipment after handling.

6.4. Reference to other sections
No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling
Avoid raising dust. Keep away from naked flames/heat. Measure the concentration in the air regularly. Carry operations in the open/under local exhaust/ventilation or with respiratory protection. Comply with the legal requirements. Clean contaminated clothing. Thoroughly clean/dry the installation before use. Keep container tightly closed.

Hygiene measures
Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

7.2. Conditions for safe storage, including any incompatibilities
Technical measures
Comply with applicable regulations.

Storage conditions
Keep container tightly closed.

Incompatible products
silver nitrate. Strong oxidizers.

Heat-ignition
KEEP SUBSTANCE AWAY FROM: heat sources.

Prohibitions on mixed storage
KEEP SUBSTANCE AWAY FROM: oxidizing agents. strong acids. (strong) bases. metals. halogens. water/moisture.

Storage area
Store in a cool area. Store in a dry area. Keep container in a well-ventilated place. Keep out of direct sunlight. Meet the legal requirements.

Special rules on packaging
SPECIAL REQUIREMENTS: closing. watertight. dry. clean. correctly labelled. meet the legal requirements. Secure fragile packagings in solid containers.

Packaging materials
MATERIAL TO AVOID: carbon steel. copper. aluminium.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Ammonium Chloride
Safety Data Sheet

Decomposition temperature: 338 °C
Viscosity, kinematic: No data available
Viscosity, dynamic: Not applicable (solid)
Explosion limits: No data available
Explosive properties: No data available.
Oxidizing properties: No data available.

9.2. Other information
Sublimation point: 338 °C
VOC content: Not applicable (inorganic)
Other properties: Hygroscopic. May sublime. Substance has acid reaction.

SECTION 10: Stability and reactivity

10.1. Reactivity
Reacts violently with (strong) oxidizers: (increased) risk of fire/explosion. Reacts violently with (some) halogens compounds: (increased) risk of fire/explosion.

10.2. Chemical stability
Hygroscopic.

10.3. Possibility of hazardous reactions
Contact with acids liberates toxic gas.

10.4. Conditions to avoid
Air contact. Direct sunlight. High temperature. Incompatible materials.

10.5. Incompatible materials

10.6. Hazardous decomposition products
Gaseous ammonia.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity (oral): Harmful if swallowed.
Acute toxicity (dermal): Not classified
Acute toxicity (inhalation): Not classified

Ammonium Chloride
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Potential Adverse human health effects and symptoms:
- Harmful if swallowed. Not irritant to skin. Practically non-toxic in contact with skin (LD50 skin > 2000 mg/kg). Causes serious eye irritation.

Symptoms/Effects after inhalation:
- AFTER INHALATION OF DUST: Coughing. AFTER INHALATION OF FUME: Respiratory difficulties.

Symptoms/Effects after skin contact:
- Red skin.

Symptoms/Effects after eye contact:
- Redness of the eye tissue. Irritation of the eye tissue.

Symptoms/Effects after ingestion:

Symptoms/Effects upon intravenous administration:
- No effects known.

Chronic symptoms:

SECTION 12: Ecological information

12.1. Toxicity

Ecology - general:
- Not classified as dangerous for the environment according to the criteria of Regulation (EC) No 1272/2008.

Ecology - air:
- Not included in the list of substances which may contribute to the greenhouse effect (IPCC).
- Not included in the list of fluorinated greenhouse gases (Regulation (EU) No 517/2014).
- Not classified as dangerous for the ozone layer (Regulation (EC) No 1005/2009).

Ecology - water:
- Slightly harmful to crustacea. Slightly harmful to fishes. In appropriate low concentrations inhibition of the degradation of activated sludge is not anticipated. Not harmful to algae.

12.2. Persistence and degradability

Ammonium Chloride (12125-02-9)

Persistence and degradability:
- Biodegradability: not applicable.

12.3. Bioaccumulative potential

Ammonium Chloride (12125-02-9)

Log Pow:
- -4.37 (Estimated value)

Bioaccumulative potential:
- Not bioaccumulative.

12.4. Mobility in soil

Ammonium Chloride (12125-02-9)

Surface tension:
- No data available in the literature

Ecology - soil:
- No (test)data on mobility of the substance available.

12.5. Other adverse effects

No additional information available

SECTION 13: Disposal considerations

13.1. Disposal methods

Waste disposal recommendations:
- Do not discharge into drains or the environment. Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals.

Ammonium Chloride
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 14: Transport information

Department of Transportation (DOT)
In accordance with DOT
Not regulated

Transport by sea
Not regulated

Air transport
Not regulated

SECTION 15: Regulatory information

15.1. US Federal regulations
Ammonium Chloride (12125-02-9)
Listed on the United States TSCA (Toxic Substances Control Act) inventory
Not subject to reporting requirements of the United States SARA Section 313
RQ (Reportable quantity, section 304 of EPA's List of Lists) 5000 lb
SARA Section 311/312 Hazard Classes Health hazard - Acute toxicity (any route of exposure)

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory

15.2. International regulations

CANADA
No additional information available

EU-Regulations
No additional information available

National regulations
No additional information available

15.3. US State regulations
California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer, developmental and/or reproductive harm

SECTION 16: Other information

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Revision date: 05/21/2020
